

SEASONAIRES®

WELCOME

Seasonaires® is the original fully bonded tour operator specialising in long stay ski and snowboard holidays. 9 yrs ago we started helping friends organise their ski and snowboard seasons and the Seasonaires® holidays were born, and we take pride in being there at the start of an era. Seasonaires Ltd is a small family run business, boarder and skier owned and run. From your very first enquiry all the way to saying goodbye to your new friends at the end of the season you will be dealing direct with your own resort manager, giving you unparalleled customer service. We might be a small company but we believe strongly in doing things properly, that is why you will see the ATOL licence and the package travel regulations etc. These are here for your protection and ensure standards that we strive to exceed.

A season or a month away is a great experience, where you will make life long friends and golden memories, and our staffs 50+ yrs of seasons experience will help ensure your planning and stay are as memorable as possible.

From the Dropstich girls team in Les Arcs, to the gap year student in Whistler, to the Seasoned pro in Mammoth and all the way to the absolute beginner in Tignes our packages are designed to meet everyone's needs.

So whether you are planning a trip just for yourself or with a few friends, looking to rent your own apartment for the season or want to immerse yourself in the legendary shared accommodation lifestyle for a season you have come to the right place.

A season can be a once in a lifetime experience or the start of a lifelong obsession.

See you on the slopes soon, Team Seasonaires®
David, Tamri, Keira, Nev, JoJo, Neil, Gill and Ian
